501

The figure consists of two parts, Fig. 5A and Fig. 5B, showing a beam in different states. Fig. 5A shows the beam in an 'Undeformed' state, which is a straight horizontal bar with a central rectangular cutout. It is labeled with 'position.' at the top left, 'Fig. 5A' on the left, and 'Undeformed' in the center. Fig. 5B shows the beam in a 'Deflected' state, where it is curved downwards. It is labeled with 'Fig. 5B' on the left and 'Deflected' at the bottom. Both figures have reference numerals: '501' points to the top surface of the beam in both states, '503' points to the bottom surface of the undeformed beam, and '520' points to the bottom surface of the deflected beam.
